Spring 2021

Learn Python Programming at No Cost

March 22 - May 24, 2021

Mondays 5pm - 9pm

CCBC

Format: Online

Python is a very simple, yet incredibly powerful programming language. Making it one of the most widely used programming languages in the industry.

In this course, you will gain a complete understanding of the key concepts, edge cases, and how to use Python for real-world application development. After completion of this course, you will have the skills required to work with an existing application or start your own project.

No prior programming experience is required.

For registration information, please contact Steve Ricketts at sricketts@ccbcmd.edu

This project is funded by the State of Maryland's EARN Maryland Grant Program, administered by the Maryland Department of Labor.
